Prevention

It is important that the school community address the underlying causes of bullying relating to school organisational issues, learning and teaching issues and relationship issues.

Preventative Strategies:

- Education about and promotion of the school's Anti-Bullying Policy.
- Social Skills Programs
- Peer Mediation/Peer Buddies Program
- Annual Student Welfare programs
- Productive and respectful relationships established between all members of the school community.
- Classroom rules, routines and processes negotiated and applied consistently.
- Adequate supervision of students during breaks on playground and classrooms
- Active intervention when bullying occurs.

Strategies to Deal With Bullying:

Reported cases can be dealt with in several ways. It is recognised, however, that each case is different and may require an individual, case by case approach.

In all cases it is important to ensure:

- That victims are believed and made safe
- That the principles of natural justice and due process are followed in regard to students reported for bullying
- Restorative Practices – ie Students who are responsible for bullying are required to attend a meeting along with the student being bullied, listen to them and make reparation.
- School Counselor intervention
- Monitoring by the Learning Support Team
- Incidences are kept on the School Data base
- Parents and school staff work together

Strategies for Students on How to Deal with Bullying Behaviours

- Stay in sight of peers and adults
- Try to stay calm - walk away without looking back
- Try to show you are not upset - practise this
- Look at the person - try to speak in a strong voice. Say something like: 'You might think that, but I don't' or 'Why are you doing this?'
- Put your hand up and say, 'Stop!' in a loud voice
- Use an 'I' message. Express your feelings in an assertive way. E.g. I want you to stop or I don't like it
- Go to a safe place - with other children or near a teacher
- Talk to someone who can help you (a teacher or your parent). Tell them what has happened, how you feel and what they can do to help. This is not dobbing!
- Never keep bullying a secret

Procedures for Dealing with Bullying Behaviour

All students have the right to be heard and listened to.

- Class teacher deals with smaller issues in the classroom in line with the school's Student Welfare Policy and individual class rules
- Teacher on playground duty deals with smaller issues in the playground – if more serious in nature the duty teacher informs the Principal who then deals with the bullying
- Have discussions with the students involved – take appropriate action
- Parents and class teacher work with student to look at underlying problems and seek solutions
- Principal works with parents and individuals to identify bullying behaviours where necessary
- School Counsellor, Learning Support Team and Principal involved in individual programs if required
- Serious bullying incidents are recorded and consequences are in line with the School's Discipline Procedures
- Issues are resolved in a calm manner with as much time as necessary given to hearing what each student feels and providing time and assistance

to help students cope better

- Students who demonstrate bullying behaviour will need to take responsibility for their behavior
- Teachers need to arrange meetings with families of those students involved in bullying incidents
- Principal will manage major bullying issues which may involve following the DEC Suspension and Expulsion procedures

Procedures for Dealing with Cyberbullying

The school reserves the right to determine whether incidents of cyberbullying are the responsibility of the school. If determined the school has a role to play we will ensure each student is safe and arrange necessary support appropriate to each situation.

- Ongoing support from staff will be provided, with the agreement of the student and parent, to assist the student to work through the effects of the cyberbullying and to help them develop and implement effective coping strategies
- The student's parents will be contacted to alert them to the issue, any ongoing concerns regarding the welfare of the student, and to discuss the issue and how best to deal with it
- Reassure the student that the school is taking the incident seriously and that the reported bullying will be acted on
- Gather basic facts about the suspected cyberbullying and, if possible, identify the students involved
- Implement appropriate responses to address the bullying using evidence-based responses such as restorative justice approaches to conflict resolution
- Provide strategies to the student and their parent to assist with managing the issue like; not responding to any further messages/postings from the bully and, if possible, blocking further correspondence from them (block their mobile number or email address)
- Appropriate adults to keep evidence of any bullying to assist with tracking down the bully and potentially reporting the matter to police (screen captures, bully's screen name, text and images)
- Request students and families keep school informed of any further cyberbullying attempts

If the student is distressed by bullying, the school will ensure the student is provided with options for psychological support including school counseling and the DEC Well Being Unit. The school will follow its established approach to incidents of bullying and student welfare.

The school will implement targeted anti-bullying strategies to support students who may be affected by, engaged in or witness to bullying behavior.

In regards to assaults, threats, intimidation and or harassment, these will be reported to the police by the Principal. The School Safety and Response unit will also be contacted where necessary. The school's critical incidence policy will be implemented in such incidences.

If there is a need to contact support agencies, then the principal will contact the Child Well Being Unit. The school counselor will also provide support.

In regards to staff the Complaints Handling Policy will be used and staff can be directed to EAPS.

The Anti-Bullying Plan and policy will be available through the school website and regular information will be communicated through the school newsletter. The school will evaluate the Anti-Bullying Plan and policy bi-annually. Reports will be made at P&C meetings. The School Community will be surveyed on the effectiveness of our schools 'Anti-Bullying' Policy. The Principal will report all student welfare incidences at LST meetings.
